Index to INTECH, Vol 36, 1989

PUBLISHED ARTICLES

Page	Title	Author
	January	
30	1989 Control Industry Outlook: Bettering the Bottom Line	W J Maczka
36	On-Line Analysis Aids Coke's Bottom Line	W J Maczka
40	Silicon's Synthesis: Sensors to Systems	J Bryzek, R H Grace, J R Malone
46	A New Measure of Control for the Brewing Industry	INTECH Staff
50	Reliable Sample Conditioning Improves Process Analysis	A P Foundos
84	Photomicrographs Reveal Hidden Landscapes	R C Waterbury
	February	
20	Data Acquisition and Recording Improve Plant Performance	D Chari, W Garrett, W Parks, J Rec, J Reum
25	Temperature or Pressure Control? Textiles Measure the Difference	C Campbell
28	Developing High Temperature Emergency Alarms	D F Wilburn
30	Flow Measurement Solved with Venturi-Cone Meter	INTECH Staff
35	High Speed PLCs Benefit Users	M J Goeke
38	Is On-Line Titration the Answer?	M LeBlanc
42	The Smart Future of the Two-Wire Temperature Transmitters	C W Lewis
47	Transducer/Transmitter Roundup	INTECH Staff
90	Alarm Monitors Ensure Smooth Voyage	R C Waterbury
	March	
30	Personal Computers Tackle Batch Control	J J Pinto
34	New Annunciators: How to Update Process Systems	N R Gangaloo
38	Consider Your Control Choices	V J Lovuola
42	PLC and CRT Control Emergency Shutdown	J Nash, R Parkison, M Quarles
47	Avoiding the Pitfalls in Industrial Computers	S R MacNeill
82	Binary Cycle Yields Biosphere Bonus	R C Waterbury
	April	
32	Computing Batch Control Choices	J Holman
34	Fueling Flowmeter Accuracy, Reliability	C O'Brien
36	Boiler Controls: Where They've Been, Where They're Going	S Connor
41	Computer Simulation Catches Bottlenecks	Research Triangle Institute
44	Bettering Batch Brewing at Busch	J Gaffen
49	The Fundamentals of Flowmeter Selection	J Rusnak
52	What to Look for in a Portable Data Logger	B Slemmer
98	FIP Plumbs the Depths of Process Control	R C Waterbury
	May	
22	Control System Design: Part 1 - The Manager's Perspective	W J Maczka
28	Expert System Aids Process Maintenance	J Hadley, R Myers Jr
32	Controls Automate China Oil Field	INTECH Staff
34	Measuring Flow with Machine Vision	C Batur, M J Braun
40	Avoiding Downtime with Alarm Monitors	INTECH Staff
74	Industrial Waste: It Could be a Gas!	R C Waterbury
	June	
28	Control System Design: Part 2 - The Distributed Control System	W J Maczka
36	ISA Unveils Interactive Videodisc Introduction	R C Waterbury
42	Selecting Small Batch Reactor Controls	V Lim
46	Dealing with Systems Integrators	A Chatha
50	Distributed Batch Control Considers Common to Complex	D Ward
54	Retorfit DCS Cuts Fuel Costs	INTECH Staff
56	Process Monitor Slashes Offshore Platform	INTECH Staff
57	INTECH 35th Anniversary Issue Insert	
81	I/P Transducers: Signal Range, Tight Shutoff, Failsafe Action	D A Hudson Jr, R C Prescott
	July	
28	Control System Design: Part 3 - The PC-Based System	V A Price
34	How to Select a Control Valve	M Adams
38	Valve Actuators Will "Get the Message"	J L Coughlin, J R Glomeau
42	Reduce the Retrofit Risk	E C Magison
46	Software Powers Process Control	R C Waterbury
49	Magmeters: Leaders in Flow Technology	A N Dellerson
50	Specifying Thermoplastic Valve Materials	C P Ziu
78	French Phoenix Rises to the Challenge	R C Waterbury
	August	
28	Real-Time AI Meets the Real World	R C Waterbury
34	Control System Design: Part 4 - The Man/Machine Interface	G R Brown, H Beum, J H Federlein, J Vierling
40	Distributed Control Drives Greenfield Mill	T Diederich, J Thompson
44	Combining Distributed-Independent and Supervisory Control	B Condon, O Mitani
48	Playing with a Loaded Programmer	B J Unruh
86	Step Inside My Computer	R C Waterbury
	September	
68	Control System Design: Part 5 - Communications Orchestrate Process Control	F Glow
78	Closed-Loop Computer Control	G Graham
82	Pacer Prompts Poultry Processing	B J Unruh
84	Audible Readout: A New Approach to Circuit Diagnosis	M Fisher
86	Calibration Technology Goes Digital	INTECH Staff
90	Trends in Distributed Control	Westinghouse
92	Issues for Digital Field Instrument Networks	D Borgeson, M Zielinski
97	A Survey of Distributed Control Systems	S R Dartt
242	Fiber Optics View Tour de Sol	R C Waterbury
	October	
24	Systems Design Using the Single-Loop Digital Control Concept	D E Bauman
28	Single-Loop Controllers Can Back Up Distributed Control Systems	D Brooks
34	Industrial Control Networks Conquer Communication Challenges	S Belisle
41	Installation Effects on Venturi Tube Flowmeters	G F Koechen, D J M Smith, H Umbach
45	Assuring Accurate Temperature Measurement	H M Hashemian, K M Peterson
90	Analysis Eliminates Thin Wall Guesswork	R C Waterbury
	November	
31	New A/D Conversion Technique Enhances Speed/Resolution	J Biglow
34	Brewery Monitor Upgrades Boiler Operation	R Downin
38	PCs and PLCs Duel for Control	R Howard
42	Dairy Cuts Costs, Ups Productivity With Automated Blending	L E Keefe
46	Sizing and Selection of Low Flow Control Valves	J A George
50	Distributed Control Systems Characteristics	E Coll
82	Smart Cards Speed Transactions	R C Waterbury
	December	
22	Computer Control Reduces Offshore Costs, Safety Risks	B Dalen
26	Weighing in with Bolt-On Sensors	K Hollander
28	Level Sensing: Choosing the Course of Most Resistance	C Randall
30	Flowmeter Terms, Types & Successful Selection	C O'Brien
34	SPC for the Processing Industries	J Shaw
38	Resin Quality Realized with On-Line Machine Vision	Flow Vision Inc
40	SPC Yields High Quality, Low Cost	R C Waterbury
42	Oil Terminal Level Sensing Gauged a Success	W W Oglesby
45	Mass Spectrometers Move On Line	G Lewis
72	Batch Processing Arrives Just-In-Time	R C Waterbury
